

In the U.S. will release the sex robots with functional genitalia

Show all results Who will be the next President of Moldova To see the results California company Abyss Creations has created sex robots with fully functioning genitalia. The launch of the product scheduled in U.S. in 2017, reports The Mirror. The company Abyss Creations, promises that dolls a new generation of RealDoll to be ultra-realistic. In particular, they will react to touch with the help of special sensors and to have fully functioning genitals. Also the robots will have built-in heaters mimic the warmth of the human body. The founder of Abyss Creations Matt Mac Mullen wants the users had to doll a certain emotional attachment. According to the company the robot can talk like a regular person. Also before you go with a sex machine in bed with her you need to talk and compliment you. Macmullen sure that in the future between humans and robots will become possible real romance. In his opinion people are not only sex machines but also to join with them in marriage. The American company Abyss Creations is engaged in manufacturing realistic silicone sex dolls with movable limbs since the mid 1990-ies. The price of the budget model is about 65 thousand dollars. The cost of the dolls a new generation of RealDoll which will go on sale in 2017 will reach \$15 thousand more than 900 thousand rubles. Name Email Notify by email when a comment is approved.
